P&H Interiors has delivered far more than award-winning, full-service design excellence for the past 23 years. Led by owner Susan Connor, the P&H team creates awe-inspiring designs that complement their clients' unique lifestyles and individual needs. "Above all else, our team has creative vision," says Connor, whose own instinctive eye for detail is attributed to growing up in a large family tied to the construction industry. "It's true that we've won numerous awards, that our clients hire us again and again, and that we're always going above and beyond to make our designs imaginative, outstanding and impressive. There's a great synergy at P & H. Something magical happens with every design. We all love what we do and it shows."

"We use our collective expertise to help carefully guide clients through every stage of the design process."

< Time is precious. Having an eye for details and the ability to create all aspects of the design at one time are hallmarks of our team.

> I encourage all the members > of our staff to play to their strengths and to do what they excel at and enjoy the most.

 A Balance, whether in your lifestyle or your surroundings, is paramount to achieving happiness.

1. What led you to your current profession?

I think it's in my genes. I come from a long line of builders and contractors. As a child, I learned about building and construction from my father and about textiles, colors and fabrics from my mother. And, because I am the fifth of eight children, I learned early in life about the importance of teamwork.

2. Which projects have brought you the most satisfaction?

Personally, I love renovations. It's so rewarding to see a space transform and create something completely new from what was originally there.

3. What role does balance play in your life?

I created a team approach to design, where everyone contributes their strengths. I also believe in staying healthy and maintaining a good balance between work and home life. I treat my staff to a free yoga class in the office every Wednesday evening after work. It's a great way to re-charge and re-new mid-week.

4. What is one thing your clients would be surprised to learn about you?

My husband and I own a farm in Virginia with our son. It's a great place to retreat to, relax and let nature inspire you.
